1. The airfield is on the northern edge of the village of Otopeni about 400 m east of the main auto road from Bucharest to Ploesti. The field is grown over with grass, has excellent drainage and can be used in any weather. There are two concrete runways, which can be used by the heaviest planes.

2. An access road runs to the barracks of the 2 Pioneer Regiment in Otopeni, about 1 km south, in the direction of Bucharest. The usual winds blow from north to south and east to west, which is why the runways are placed as they are. At the beginning of December 1951, 35 or 40 Soviet jet fighters were observed at the field.

Encl. Sketch map of the field (one page).

Legend of map:

1 - 4	Metal hangars.
5	Underground gasoline tank
6 - 9	Brick walled hangars
10-19	Wooden barracks of the German type
20-23	Mowed lawn
24,25	Concrete runways, about 30 meters broad.
